WEDDING FAQ

How early do I need to order a wedding cake?

Wedding season spans from April to October with peak months of May, June, September, and October. If you are getting married within this time frame, please plan ahead at least 3-6 months to ensure your date is reserved.

How do I schedule a cake tasting?

Call or email us to reserve your complimentary consultation.

Can I reserve my wedding date?

Reserve your date with a deposit of ½ the price estimate created for you. All the details of your design must be finalized two weeks prior to the event date.

How many servings of cake do I need?

The equation we use is 1 serving of the bride's cake for every one and half the number of guests for the Groom's cake. Groom's cakes are typically different flavor, so half the people will try both cake flavors. This is simply a starting point and we are happy to discuss each wedding specifically.

Do you apply the flowers and/or cake topper?

Typically the florist you hire will want to apply the flowers to your cake. We are happy assist with placing your topper. Please communicate these needs to us during the planning of your cake order.

Do you have budget-friendly options?

A popular option for brides with large guest lists is to order a smaller "display cake" with side cakes for the additional servings. We are happy to discuss all these options with you.

What are side cakes?

Side cakes are not displayed, and meant to be served from the kitchen. If customization is desired, additional charges may apply.

When do you deliver the cake?

We deliver 2 hours prior to the start of the reception if the wedding is at a separate location. If both wedding and reception are at the same venue, we deliver 3 hours prior.
